Sate Trooper Sanute Follows Gunderman In Facing Somerset Jury

SOME "SURPRISES" BEING FORECAST early this morning by train from ments.

Selection Of Jury Will Probably Consume At Least Two Days

(International News Service) SOMERSET, Pa., March 1 .-In this little mountain hamlet, suddenly thrust into the limelight after decades of peaceful solitude, State Trooper Anthony Sanute, the second of 12 deendants indicted in Pennsylvania's most sensational court case of this generation, will go on trial today for his life.

Indicted as an accomplice in the alleged brutal beating and battering of Frank C. Monaghan, 64, Uniontown hotel keeper, Sanute will be the second to watch the selection of a jury of country folks that will

decide his fate. The original panel of jurors, less ial and the 22 who were excused, had been cut off by loyalists in the have been recalled. The Parent Problem

By Garry C. Myers, Ph. D.

MILK GOOD FOOD

HOW MUCH milk does your family consume? As you know, nutritionists tell us that milk in some form should be included in the everyday diet of every family. Milk contains an abundance of calcium and other essentials which are likely to be deficient in diets without

A satisfactory milk allowance for most families is from three to five quarts per family per week. Three quarts will do if it must. Five quarts is better. For the average family three quarts would allow one pint per child and one cup per adult; five quarts would allow between three and four cups per child and

one and one-half cups per adult. The average amount of milk consumed by 28,966 families studied was only 2.44 quarts per week. These families lived in 63 cities in various sections of the United States. Such are the facts from a survey made under the U.S. department of agriculture, at the request of a committee of women representing 12 national organizations

Do your children CATCH COLD easily? Do their colds HANG ON and on?

Follow this Practical Guide to Better Control of Colds

1. To Help PREVENT Many Colds

At the first warning sneeze or sniffle or the slightest irritation in the nose—quick!—put a few drops of Vicks Va-tro-nol up each nostril. This specialized medication is expressly designed for the nose and upper throat, where most colds start. Used in time, Va-tro-nol helps to prevent many colds-and to throw off head VATRO-NOL colds in their early stages.

2. To RELIEVE a Cold Sconer

Of course, some colds strike without warning, or get by even the best precautions. Then you need your dependable Vicks VapoRub. Go straight to bed and massage it briskly on the throat, chest, and back for 3 full minutes. Then spread a thick layer of VapoRub over the chest and cover with a warmed cloth. Long after you relax into restful sleep, VapoRub's famous

poultice-and-vapor action continues hour after hour-loosening phlegm, easing your cough, relieving irritation, helping to break up local congestion.

Sickness from Colds Cut In Half!

The two simple steps outlined above, together with a few sensible health rules to build up and maintain resistance, are the basis of Vicks Plan for Better Control of Colds. In the biggest colds-clinic ever held-with 17,353 people as subjects-Vicks Plan resulted in fewer colds and shorter colds. It cut sickness from colds more than half!

Garden Forum Meeting With Success In Effort To Beautify County Landscape

MANY ORDERS HAVE BEEN TAKEN

Efforts of the Lawrence County Garden Forum to have a large planting of red bud trees throughout the county this spring are meeting with success and a number of orders are being placed for these trees at the exceptionally low price secured by the organization.

Last week many orders were taken in the Strouss-Hirshberg Company and New Castle Dry Goods stores, where NYA girls aided the Garden Forum with the sale of the tre s at booths placed in the stores. Orders will still be taken by the officers of the Garden Forum, and by any of the officers or members of the different garden clubs of the county until March 5, after which date the sale will end.

These trees can be obtained during this period for ten cents each or if ordered in lots of 25 or more, at six and three-quarters cents each. The regular price from the nursery for an individual purchase would be at least a dollar a tree

Tree Is Described

The trees that are being ordered by the forum are from one-and-a half to three feet in size, the best size for transplanting.

Final Decree Will Be Won Westminster In April Is Report

(International News Service) LONDON, March 1.-A divorce for Mrs. Wallis Simpson and plenty of money for her prospective husband, Event In Pittsburgh, Friday the Duke of Windsor, appeared to be certainties today

Mysterious goings-on at the hall of records in Somerset House, where the Simpson divorce file is kept, are only intended as a blind to keep some busy-body from interfering with granting of a final decree to Mrs. Simpson late in April, legal authorities said.

Plenty Of Money

There is the chance that a few of the weaker kneed among the 'antis," surrendering to the capital's July and August temperatures, will incline to a compromise-maybe to a couple of new supreme court justices-but not, it's a safe bet, to six of them.

QUEER BED-FELLOWS

As "politics," they say, "makes strange bed-fellows," this supreme court fight surely has lined up several queer comrades in arms. Of all senators, I would have said that Burton K. Wheeler of Montana

is the most radical. And Millard E. Tydings of Maryland, I would have called one of the most conservative.

Yet Wheeler and Tydings are side by side in opposition to the Rooseveltian supreme court program. Wheeler has one reason; Tydings another. Yet they are partners on the essential proposition.

Imagine those two agreeing on anything! It's like John W. Davis, of J. P. Morgan & Co.'s counsel, and Clarence Darrow joining hands as co-liberals, or, should one say, co-conservatives.

SPLITTING ALL WAYS

It is not alone that parties are realigning; they are splitting every which way.

There long have been Republican conservatives versus Republican liberals; also conservative Roosevelt forces may have the Democrats versus liberal Democrats. There have been Republicans who were more Democratic than Republicans, as labeled. And vice versa on the Democratic side.

It would have been natural blocking a final vote all through enough to see liberal Republican and Democratic liberals affiliating, The house of representatives' rules as liberals; to see conservative Democrats flopping over to conservative Republicans, as sympathetically both conservative.

CITES TRAFFIC DANGER SPOT New Castle, Pa.

March 1, 1937 Editor New Castle News: Dear Sir:

While everyone is talking of the merits and remerits of the traffic lights at Grant and Jefferson streets, I think someone should investigate the traffic conditions at the corner of South Jefferson and South streets. Conditions are bad, if not worse than anywhere in the

It seems as though everyone takes Jefferson street for a race course, as every car that traverses this street averages from thirty-five to forty miles per hour.

There has been a number of accidents at this corner which could have been avoided if there had been a light installed.

It is not only unsafe for motorists, but for pedestrians as well. The children of St. Joseph's school have no protection at all from the speed demons who travel this street. Let's make this corner safe for everyone and get a light for it.

Sunday School Contest Reports For Sunday

Four Sunday schools, the Croton M. E., the First Christian, the Second U. P. and the Mahoningtown Presbyterian, had a better attendance yesterday, February 28, than the previous banner Sunday in the increase campaign known as the "Gold Rush" being sponsored by the Lawrence County Sabbath School Association.

The number of nuggets accumulated by the eleven participating Sunday schools total 1,076 which is a total average increase of 38% for the four Sundays or an average increase in attendance per Sunday of almost ten per cent. As the attendance has been much improved for the last two Sundays, the percentage of gain per Sunday school will be materially increased by the close of the campaign, Easter Sunday, Mar. 28. During the campaign the East Brook M. E. Sunday school, while not competing with New Castle, has more than doubled its average attend-

FROM ME TO YOU

Not much doing over the week-end . . . no parties that I can remember . . . everything was very quiet . . . Went into the air yesterday for the first time in five months . . . it sure felt grand looking over the landscape . . . the air was smooth . . . a real joy for the flyer in a light ship is to have smooth air . . . it's getting that time of year when the young fledging starts out after a winter's rest . . . all we need is a good airport.

The rest of our time will be taken up answering the mails . . . here is one item that was not in the mails but should be mentioned.

The initials of those involved in a South Side Romance . . . we mentioned it a few weeks ago . . . are A. C. and Miss E. D. . . . we predict that it will be center aisles as soon as the buds commence to make their appearance . . . Oh me.

O. W. K. in Ellwood City . . . You should know about Doris Marvin ... she says it isn't a preacher ... I am not telling tales on myself ... ask her if you don't believe me. Red in Wampum . . . it seems that Miss Marvin is known in all sections of this universe but we still are at bay as to why she has

been spending so many evenings at Slippery Rock. Here is a little incident on one of our fellow citizens . . . Bob Preston of the Preston Wholesale House went into Pittsburgh one night this winter to see and hear Jack Benny . . . after the show Bob went over to buy a paper and as he turned around he ran into a young fellow . . . the force knocked the man on his back . . . yes you are right . . . it turned out to be Jack Benny . . . Jack didn't say much you know, as Bob is a pretty big guy . . . Nice going Senior Preston.

The Supreme Court.

The work of keeping the banquet actually a masterly presentation of Mr. Caldwell's address was timely

it was scholarly, and concerned a aity at this particular time.

Said Mr. Caldwell: "It has been more than 50 years ion upon our system of government. He said: 'I do not hesitate to call the governmental system of the United States the aristocracy of the robe', and in admiration he added. And I do not hesitate to call this the truest aristocracy for the purpose of government which the world has yet produced'. Other admirers of our plan for judicial review have been less frank in their analysis.

"We are all aware how violent have been the differences of opinion resulting from recent decisions of the supreme court. To many they are an affront. To others they represent the preservation of the fundamentals of individual liberty and private property. It does not seem untimely, and I hope it will not be altogether without interest upon an occasion such as this, to review briefly and in as nearly an impartial manner as possible some considerations bearing upon the powers of the supreme court to invalidate legislation as unconstitutional.

Two Constitutions.

"Our federal constitution has been characterized as in fact two constitutions combined in one. There is a constitution of government and a constitution of liberty. The first outlines in vague terms the powers of the nation and prescribes that the powers not given to the nation shall remain with the states or with the people. It also apportions the powers given the nation among the three departments of govern-
